

STANLEY® Hand Tools (STA047465)

Power Winder Chalk Line 30m, Chalk & Level

The Stanley Power Winder Chalk Line kit is supplied with 113g of blue chalk and a line level. The case will hold 45g 1.5 oz of chalk to reduce filling times and it contains 100ft of 40lb string.

The metal crank folds inside the case for storage. Importantly the stainless steel end hook will not rust.

The quick gear release crank will not spin when pulling out the line and it has a sliding door for quick and easy refill. This chalk line combines weight and style to provide plum bob utility.

Specification Cord Length 30m
