

Faithfull (FAIPDRSNAKE)

Drill Snake 4.6m

The Faithfull PDRSNAKE Drill Snake is a labour saving drill auger snake designed for use on any variable speed electric or battery drill capable of holding a 1/4in hex shank

The auger is easy to use and will remove most types of blockages from household pipes and drains up to 50mm (2in) in diameter and is ideal for clearing basins, sinks, baths and waste pipes when plungers and chemicals fail to work

The 4.6m (15ft) x 6mm (1/4in) steel cable is encased in a wipe clean PE sleeve allowing the inner cable to spin freely when attached to a rotary drill. A built in clutch will automatically engage if the cable becomes jammed. No chemicals are required to help remove the blockage making this a safe and environmentally friendly product.

Specification: Effective length: 4.6m (15ft)

Power Type	Size (mm)	Size (in)	Length (m)
Accessory	6	1/4	4.6
