# 12 PIECE DRAIN ROD SET

Flowflex Drain Rod Set 12 Pieces Blue Lockable

**12** PIECE SET

**10** FLEXIBLE RODS

**2** ATTACHMENTS

**1** BAG

## PRODUCT OVERVIEW

Flexible screw-together rod set for routine clearing and maintenance of accessible domestic drains and pipework. Rods can be added progressively to extend the working reach.

## TECHNICAL SPECIFICATION

| | |
|---|---|
| **Product type** | Manual drain rod set |
| **Set size** | 12 pieces |
| **Rod quantity** | 10 |
| **Rod colour** | Blue |
| **Connection** | Threaded screw connection |
| **Attachments** | Rubber plunger and double worm screw |
| **Storage** | Handled bag |

## SET CONTENTS

- 10 flexible drain rods
- 1 rubber plunger
- 1 double worm screw
- 1 handled carry bag

## TYPICAL APPLICATIONS

- Domestic drain maintenance
- Pressure clearing with the rubber plunger
- Soft obstruction breakup or retrieval
- Routine pipework cleaning and maintenance

## KEY FEATURES

- Flexible blue rods with metal threaded end fittings.
- Modular construction allows rods to be added progressively.
- Two interchangeable clearing attachments.
- Reusable carry bag keeps the full set together.

## OPERATING GUIDE

- 1. Inspect all rods, joints and attachments before use.
- 2. Select the attachment and tighten each connection securely.
- 3. Feed rods gradually, adding one rod at a time.
- 4. Rotate only in the direction that tightens the threaded joints.
- 5. Withdraw carefully, removing one rod at a time.
- 6. Clean and dry all components before storage.

## SAFETY AND LIMITATIONS

- Wear suitable gloves, eye protection and protective clothing.
- Do not use damaged, cracked or loose components.
- Do not force rods around severe bends or against fixed obstructions.
- Keep hands clear of joints during connection, rotation and withdrawal.
- Stop and consult a competent drainage professional if the blockage does not clear readily.

## CARE AND STORAGE

Rinse residue from the rods and attachments after use. Allow all parts to dry fully before returning the set to the bag. Store indoors in a clean, dry location away from direct heat, sunlight and chemicals.
